

## OMAGH ENHANCED LOCAL HOSPITAL.

Having been awarded the contract for Omagh Enhanced Local Hospital, McLaughlin & Harvey have the project well underway. This is the fourth edition in the series of our project newsletters. These will provide regular progress and update information. We hope you enjoy being updated on the project.

### Progress Report

Foundation works are progressing well and we hope to have these complete by the Christmas holiday period.

The steel frame is currently being erected in Block H and piling works are now complete in the Helipad area.

Coming up to the Christmas period we would like to wish the surrounding community and businesses Seasons Greetings and a Happy New Year.

### Community / Environmental issues

We are aware of the potential impact on the local area and will actively work with the local community and The Western Health and Social Care Trust to ensure that appropriate and timely measures are introduced to minimise any potential disruption during the development.

McLaughlin and Harvey have incorporated numerous environmental aspects within the construction phase.

We are dedicated to carrying out the construction works in the most sustainable manner possible.

Weekly environmental targets are put in place and throughout November these have been met consistently.

MCL & H McLaughlin & Harvey		Environmental Targets					
Week Ending	07/11/2014	14/11/2014	21/11/2014	28/11/2014			
Target							
Zero Spills	✓	✓	✓	✓			
Zero Incidents	✓	✓	✓	✓			
Zero Noise Complaints	✓	✓	✓	✓			
Zero Dust Issues	✓	✓	✓	✓			
Zero Housekeeping Issues	✓	✓	✓	✓			
Segregate Waste	✓	✓	✓	✓			

This is carried out alongside extensive energy and waste monitoring in line with our BREEAM Requirements.

McLaughlin and Harvey have donated a set of construction toys to the Children's Centre in the Tyrone County Hospital.

The department were very pleased to receive these toys for children to enjoy them in the waiting room and play area.

## Considerate Constructors Scheme

---

The site is registered with the Considerate Constructor's Scheme which is a national initiative set up by the Construction Industry to improve its image.

The first visit to the Omagh Hospital project was held on 26<sup>th</sup> November and we are hoping to receive the score prior to the Christmas holiday period.

A number of activities have been carried out leading up to the visit. The Most recent of which was a site tour and talk with students from the South West College. The students

were escorted around the site by the Project Manager whilst he explained the ongoing activities and answered any questions.

An occupational health nurse visited the site during November where all site staff had the opportunity to get basic health checks carried out. BMI, Blood Pressure, cholesterol, diabetes and visionary checks are some of what was conducted on the day. Wellbeing packs were issued with information on various health aspects and free fruit was provided.
