

OMAGH ENHANCED LOCAL HOSPITAL.

Having been awarded the contract for Omagh Enhanced Local Hospital, McLaughlin & Harvey have the project well underway. These regular edition newsletters will provide progress and update information. We hope you enjoy being updated on the project.

Progress Report

Works are progressing steadily onsite. Backfilling has commenced in preparation for the ground floor slabs in blocks B&C, substructure walls and columns are being formed in blocks D&E and precast floors are being installed onto the steel frame of blocks G&H.

Community / Environmental issues

We are aware of the potential impact on the local area and will actively work with the local community and The Western Health and Social Care Trust to ensure that appropriate and timely measures are introduced to minimise any potential disruption during the development.

McLaughlin and Harvey have incorporated numerous environmental aspects within the construction phase. We are dedicated to carrying out the construction works in the most sustainable manner possible.

Before the site departed for their Christmas break, we held a food bank in the last few days. From this we gathered a generous donation of food which was presented to St Vincent De Paul in Omagh. This food was used to create hampers for over the Christmas period.

Considerate Constructors Scheme

The site is registered with the Considerate Constructor's Scheme which is a national initiative set up by the Construction Industry to improve its image.

The first visit to the Omagh Hospital project was held on 26th November and the site scored an impressive 43/50.

Activities are continually being carried out within the local community, the most recent of which was a construction safety talk with Drumragh Integrated College on 17th December 2014

Safety Group NI visited the school with McLaughlin & Harvey and presented a talk to years 11 and 12 on construction safety issues.

This newsletter is available in Braille and in CD format. Please contact the Environmental Advisor.
